## Improve Your Firm's Competitive Position

The Velocity Partner Program allows companies to further their competitive position with premiere transaction processing services and best-of-breed payment enabling technologies. Velocity private-labels turnkey web-based credit card and ACH payment solutions, uniquely tailored for the special business needs of healthcare organizations, utilities, insurance companies, governments, financial institutions, as well as many other verticals.

## Fully Compliant Solutions

Adherence to the rules and regulations governing the processing of electronic transactions and the storage of transactional information is something we take very seriously. Govolution undergoes rigorous audits to ensure that the Velocity Payment System fully meets or exceeds all industry standards. Govolution is PCI certified and it has successfully completed numerous SAS 70, Type II audits. Our continuing efforts guarantee that payment-related information is protected at all times.

## Ongoing Support

Velocity's Partner Program offers an attractive revenue share opportunity for all partners. Velocity is a flexible system that enables the Partner to easily configure system parameters for rapid, cost effective deployment and integration. All Partners are also afforded access to vertically-aligned solutions, sales support and technical support, ensuring your team has the tools needed to grow your business.
